WAVE SOLDER ALLOY

Superior wetting
and hole fill

Lower
dross
rates

Cost-efficient
solutions

ALPHA® SnCX Plus™ 07

A Cost-Effective and Reliable Solution to Simple- and Standard-Complexity Dual-Sided Assemblies

ALPHA® SnCX Plus™ 07 offers:

- Fast wetting speed and excellent hole fill
- Lower solder pot temperature at 255°C
- Lower dross generation
- High copper erosion resistance
- Proven manufacturability and reliability

Available in bar, solid wire, cored wire and anode
Suitable in wave, dipping, HASL and rework processes
